

# Generator Truck

Our Generator Truck delivers stable and reliable power on set, covering a wide range of energy needs from lighting and basecamp to technical departments. Built on an Iveco chassis and equipped with a 100 kW generator, it's ideal for productions with larger equipment loads or remote location shoots requiring consistent and high-capacity output.

## FEATURES

- Onboard 100 kW generator
- Distribution boxes and cable sets
- Built-in storage for accessories
- Designed for high-capacity, continuous use
- Heavy-duty Iveco base
- Driving License Category: C

This mobile power unit comes fully equipped with cable sets, distribution boxes, and integrated storage – offering a plug-and-play solution to support your shoot without delay.
